Department: I Information Technology

College: Government Arts College (Autonomous)

Coimbatore-18, Bharathiyar University

PROJECT TITLE

"MY DIGITAL PORTFOLIO "

AGENDA

1. **Problem Statement**
2. **Project Overview**
3. **End Users**
4. **Tools and Technologies**
5. **Portfolio design and Layout**
6. **Feature and Functionality**
7. **Results and Screenshot**
8. **Conclusion**
9. **Github Link**

Problem Statement

1. Students and professionals often struggle to present their skills and projects in a structured and visually appealing way online.
2. Traditional resumes are static and fail to showcase interactive features or live project demonstrations.

Project Overview

1. The project is a personal digital portfolio website built using HTML, CSS, and JavaScript to showcase skills, projects, and achievements.
2. It provides an interactive and responsive layout with sections like About, Skills, Projects, and Contact for better presentation.
3. The portfolio acts as a professional identity platform, helping in academic, internship, and career opportunities.

End Users

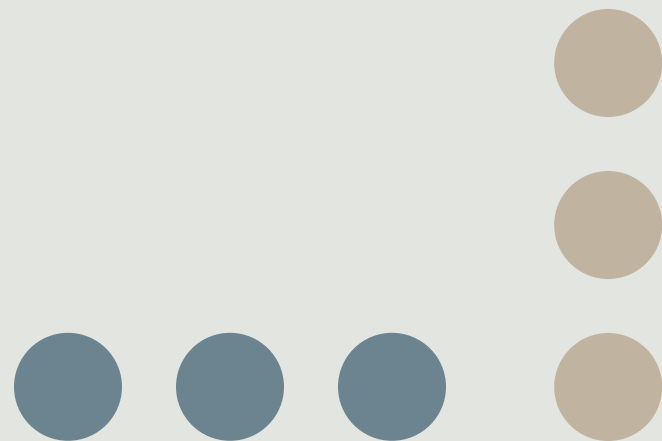

1. Recruiters and employers looking to evaluate skills and projects.
2. Academic staff or mentors reviewing student work.
3. Peers or collaborators exploring potential teamwork opportunities.

Tools and Technologies

1. HTML, CSS, JavaScript – for structure, styling, and interactivity.
2. Canva – for creating visuals and layouts.
3. Git & GitHub – for version control and project management.

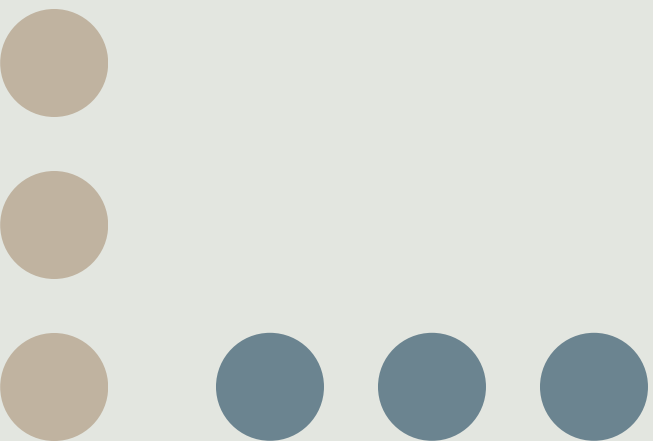

Portfolio design and Layout

1. Clean, modern, and responsive design using CSS grid and flexbox.
2. Organized sections: Hero, About, Skills, Projects, Contact for easy navigation.
3. Light/Dark theme toggle for better user experience.

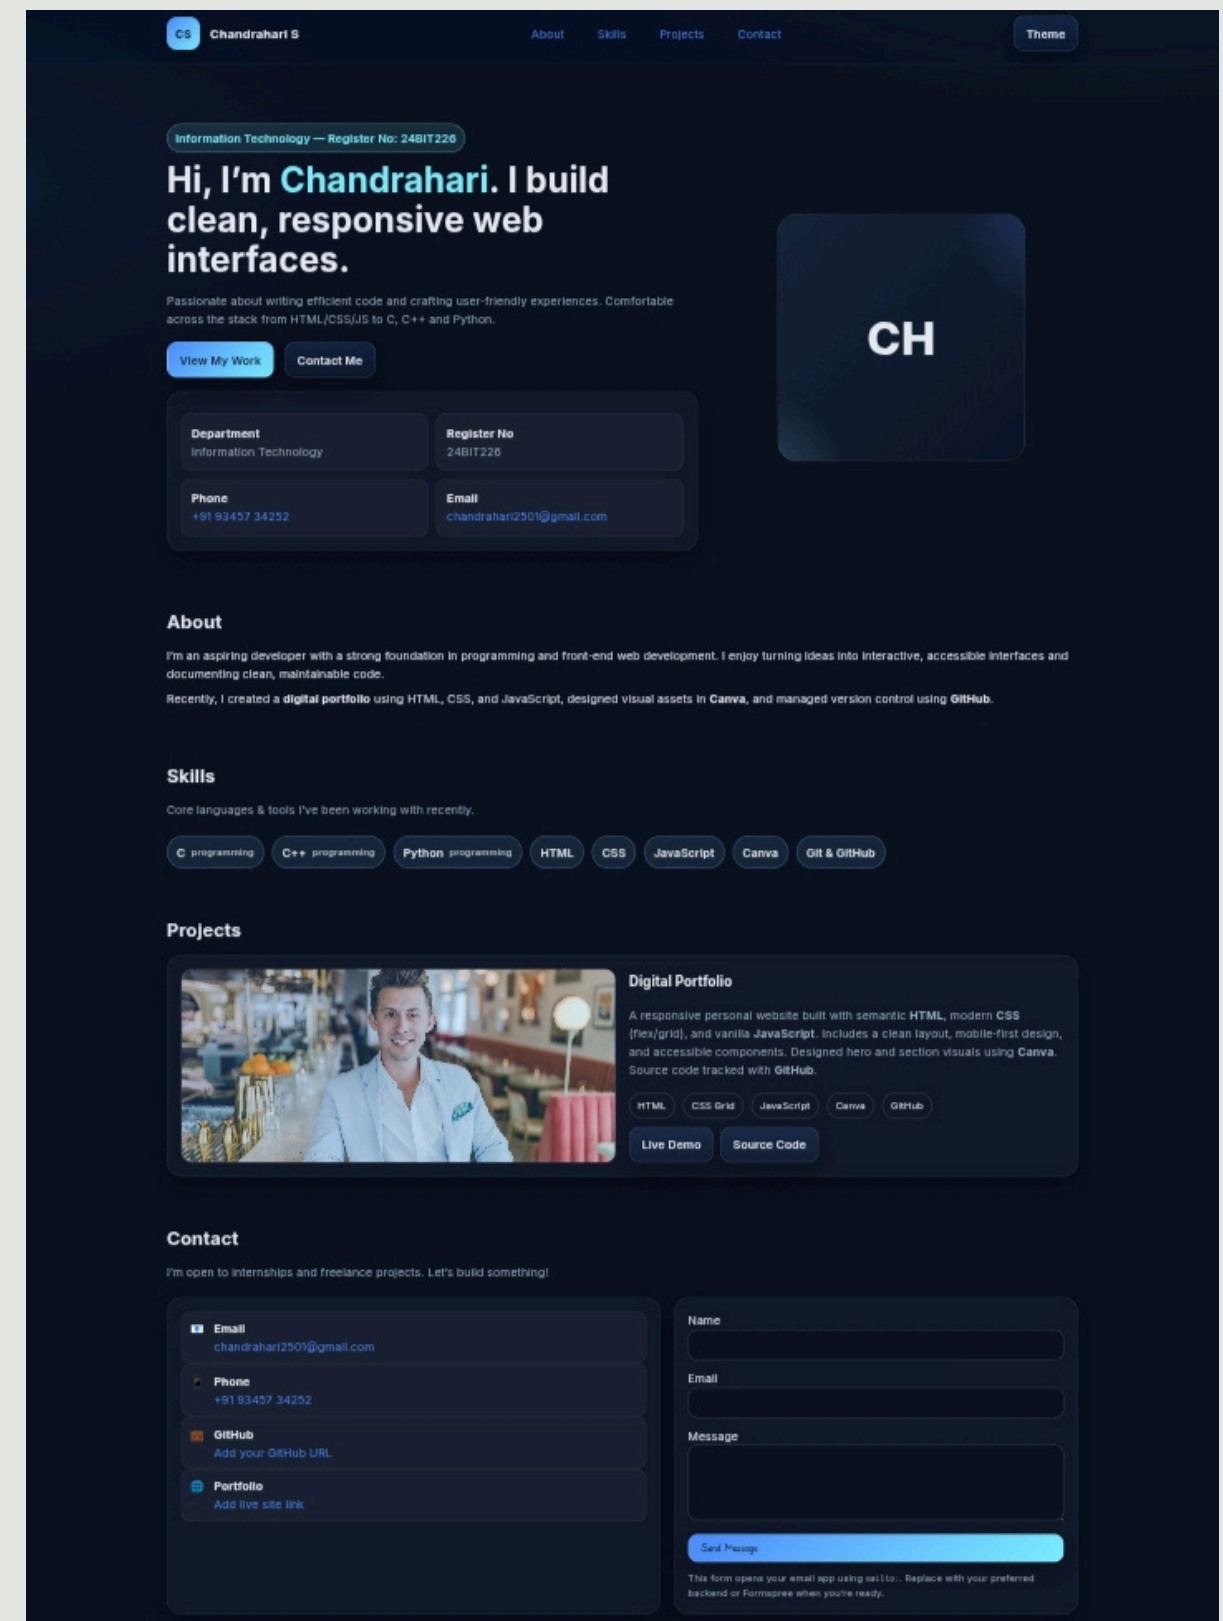

Features and Functionality

1. Interactive contact form integrated via mailto/Formsprees.
2. Theme switching (light/dark mode) with local storage support.
3. Mobile-friendly navigation menu with hamburger toggle.

Results and Screenshot

The portfolio successfully displays personal details, skills, and projects in a clean and responsive layout.

Conclusion

1. The portfolio provides a professional platform to showcase skills and projects.
2. It improves visibility, credibility, and career opportunities for the developer.

Thank You
